

HI! MY NAME IS **JEAN-MARC BILLARD** AND I DO:

MOTION GRAPHICS | GRAPHIC DESIGN | PRODUCT DESIGN | 3D STUFF

I'm pretty good polygonal modeler and actually not bad in a bunch of awesome stuff like Photoshop, Illustrator, the Adobe Creative Suite, eating bacon and writing sticky notes all around for my self...

I've started working at wTVision (Brazilian office) as Graphic Designer in 11/2010, working on the development of creative graphic solutions for realtime TV in general and helping the coordination of the Graphic Design Department in Rio de Janeiro - Brazil.

Soon after, 07/2012, I was called to assume as 3D Generalist in the videographic department of Futura (the TV channel) and now I'm Lead Designer of the department.
